## Work experience

---

### Irrational Labs

September 2014 — February 2015

Intern

<http://irrationallabs.org/>

### AnyMeal

July 2013 — Present

Chief Executive Officer

AnyMeal is a mobile application that helps people with dietary restrictions discover restaurants and dishes that are suitable for them. I founded the company with Drew Bent, my Co-Founder, at the MIT Launch Entrepreneurship program. [www.anymealapp.com](http://www.anymealapp.com)

### Google

June 2013 — July 2013

Intern

Worked with a team on creating the google one-box for calculating the area, perimeter and volume of geometrical shapes! [www](http://www).

### Crowdy

March 2014 — Present

Project Manager

Led all crowdspeaking campaigns, in creating them and helping them raise the social support from users. [www.crowdy.co.il](http://www.crowdy.co.il)
